About Our Company

TeeMates

A magical brand blending animation, wearable tech, and revenue-sharing merchandise for families.

The Problem

➤ Missing Role Models

Today's kids' content lacks positive, relatable heroes with real-world value.

➤ Parents Want More Than Entertainment

Parents want screen time that teaches kindness, empathy, and creativity.

➤ No Real-World Engagement

Most brands offer no way for fans to participate, earn, or make a difference.

Our Solution

➤ Stories That Teach

Engaging animation with moral storytelling.

➤ Merch With Meaning

Revenue-sharing merchandise fans can invest in.

➤ Smart Tech for Smart Families

Family-friendly AI and smart wearables that inspire and protect.

➤ Music that encourages self-discipline

Positive thinking – with lyrics that build confidence and encourage optimism.

Core Products

► Animation & Merch

Animated series: launching with Dave, a struggling comic book shop owner whose act of kindness brings magical characters to life through enchanted T-shirts.
- A story built around our merchandise brand.

► Tech & Future

- Gotgames.fun token burn accelerator
- Merchandise revenue-sharing slots for fans.
- TeeMates Family AI assistant
- Hologram projectors for immersive storytelling
- Future: smart clothing with crypto rewards and safety features.

Hologram Engagement

Our AI assistant, TeeMates Family, uses a hologram projector to bring custom-made stories to life — narrated by TeeMates characters. To boost engagement, we're giving away 1,000 hologram projectors to users. They only cover shipping and handling.

Gameplay That Burns Your Tokens and Builds Attention Through Scarcity.

Introduce tokens to gamers and create scarcity. As supply shrinks with each game played, holders are motivated to play, win, and share.

*play to
burn*

Design Share Slots

Own the Design. Earn from Every Sale.

- Each TeeMates shirt and hoodie design has 100 ownership slots.
- When at least 1 slot is purchased, the product goes live in the public store.
- Slot owners earn 90% of net revenue, split evenly among them.
- TeeMates retains 10% to fund brand expansion and increase market growth.
- Investors have access to a private store where they can purchase design share slots.
- Each slot costs \$100 and grants a long-term share of the sales of the item. Revenue is tracked transparently and updated in real-time.

Gizverse Token

The Fuel Behind the TeeMates Ecosystem

- Gizverse Token powers transactions across TeeMates, Gotgames.fun, and other ecosystem platforms.
- Used for:
 - Purchasing merchandise and design share slots
 - Unlocking digital rewards and exclusive content
 - Participating in future NFT drops and play-to-earn games
- A portion of every transaction supports liquidity, burns, and community rewards.
- Launching alongside the TeeMates soundtrack on July 19.
- Built for long-term utility, not hype.

Gizverse isn't just a token — it's the engine behind a movement.

Token Name: Gizverse

Symbol: GIZ

Blockchain: Solana

Total Supply: 21,000,000,000 (21 Billion)

Decimals: 18

Buy Tax: 5% Total

- 1% Liquidity Pool
- 2% Ecosystem Fund (marketing, development, burns)

Sell Tax: 8% Total

- 2% Liquidity Pool
- 3% Ecosystem Fund

✓ Taxes are adjustable (with hard-coded limits):

- Max Sell Tax: 5%

Early Traction

Artificial Intelligence

+45%

Album release scheduled for July 19, with Gizverse Token launch soon after.

Internet of Things

+53%

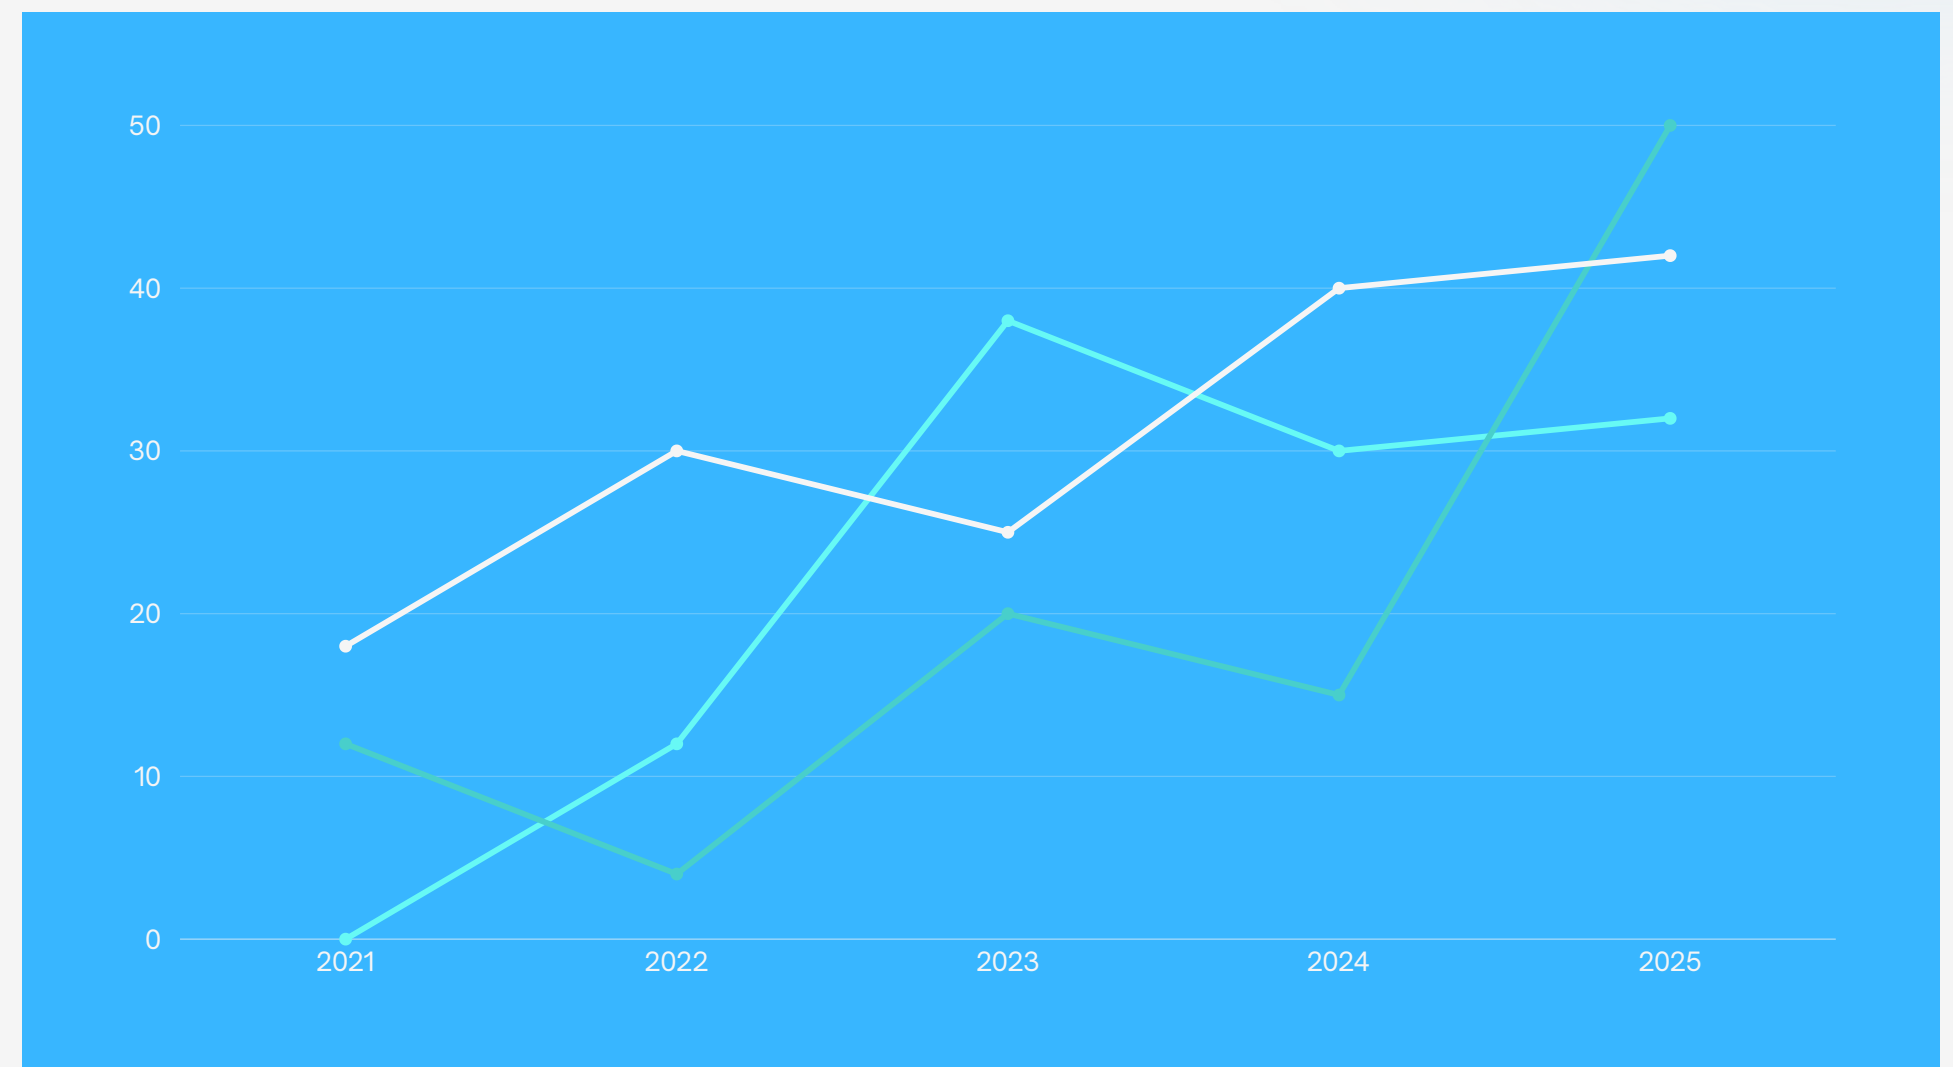

Animated shorts and character assets are completed, and YouTube viewership is increasing.

Others Products

+42%

Merch store integrated with Merchize, gaining traction from New York and L.A. billboard ads.

- Strong story foundation and cross-platform rollout

Revenue Model

- Merchandise sales (shirts, hoodies, collectibles)
- Design Share Slots.
- Gizverse Token.
- Future: hologram kits, smart shirts
- Music sales generate consistent income across platforms.
- YouTube subscribers continue to grow, increasing monetization potential.

The Team

Founded by Rome Peterson — an entrepreneur combining storytelling, tech, and merchandising.

Creator of the TeeMates brand, Gizverse, and TeeMates Labs

Vision

A next-gen family brand that fuses:

- Timeless animation.
- Physical and digital merchandise.
- Smart wearables and blockchain-backed ownership.

TeeMates is Pixar meets Pokémon for a connected generation.

Funding Ask

We're raising \$1,000,000 to scale TeeMates:

- \$400K (40%) – Liquidity and token infrastructure
- \$250K (25%) – Animation production and voice talent
- \$200K (20%) – Merchandise, smart shirt prototypes, fulfillment
- \$100K (10%) – Marketing and influencer outreach
- \$50K (5%) – Legal, IP protection, platform integrations

We're the next Procter & Gamble. Believe it.

Patents

The TeeMates patent covers a smart clothing system with an embedded chip that links each shirt to a unique digital avatar in a companion app. The chip tracks real-world activity, interacts with nearby smart devices, and rewards users with digital tokens based on movement and location. In emergencies, it passively logs nearby device IDs—capturing potential abusers—and alerts emergency services for added safety.

Animation

Join the ride as our heroes tap into the best of the '80s and '90s to bring heart, humor, and a little retro magic to a world that needs saving.

Music

TeeMates Legends is the soundtrack to the animated series, with 11 powerful songs that bring each character's story to life. It's part of a larger ecosystem where fans don't just listen — they invest, earn, and engage through revenue-sharing merch and smart tech. With emotional depth and real-world utility, this album can become the heartbeat of a movement that blends entertainment with impact.

Thank You!

**This isn't just a show. It's your
moment. Heroes take flight.**
